

## Senior Pet Release Form

Your senior pet is very important to us. Because their welfare is our top priority, we want to assure you that we will make every effort to make their stay with us as safe, comfortable, and routine as possible. However, when older pets are boarded their bodies are subjected to unforeseen stresses because their normal routine is disrupted when they are removed from their home environment. This has the potential to cause latent physical conditions (i.e. heart, liver, kidney, arthritic pain, etc.) to become active or more severe. Senior pets are also more at risk to acquire respiratory infections in boarding settings.
